

令和2年度入学試験問題 (英語)
(解答は全て解答用紙に記入すること)

問題 I 次の英文を読んで、下の各設問に答えなさい。

When we die, do we live again in this world? Many people think this is so. We may not come back into this world for hundreds of years. Of course, we'll have different bodies. We could be either men or women. It is said there are many examples of this.

The most famous example is that of Bridey Murphy of Chicago. When she was with her doctor, she suddenly started to speak in a different way. She didn't have an American accent any more. She had an Irish accent. She talked about a little village in Ireland. She described the people and buildings very exactly. She even gave the names of these people. She said she had lived in this little village two hundred years ago.

At first, the doctor thought Miss Murphy was just dreaming. He did nothing. However, she kept saying the same things every time. He asked some Irish history experts to try to find this village in Ireland. They did. Then they studied the history of the village more carefully. The people and buildings which Miss Murphy described, had lived and been in the village two hundred years ago! Had Bridey Murphy been there herself two hundred years ago in another body?
